CZ75 P-09

The CZ P-09 is a full-size tactical pistol with an integrated rail for mounting light and/or laser. Manufactured under license from CZ this airgun is designed from the original specs resulting in a realistic look and handling. Its blowback function makes the metal slide move with every shot fired, creating strong recoil, adding to the shooting experience.

| | Rem-UMC 150 (200) | 3138 ft/s | 27.07 ft/s |

Accuracy begins on a molecular level. To reduce friction and increase accuracy, firing rate, and muzzle velocity, choose a lubricant that bonds to your firearm's metal surfaces. An added benefit is that the bore will stay free of fouling longer. Tetra is well-known for its fluoropolymer lubricant technology, which is available in Grease, Oil Lubricant, and Spray forms.

Tetra Gun Lubricant Bore Treatment for Improved Accuracy and Reduced Fouling

BEFORE
 Elevation 0.7°
 Windage 0.8°
 Extreme Spread 1.0°

DURING
 First shots are high and 'dirty'. Group is large. Small group develops at 15 shots.

AFTER
 Elevation 0.5°
 Windage 0.6°
 Extreme Spread 0.7°
 Group rounder & tighter

REEL LUBRICANT

Fluoropolymer Penetrating Lubricant and Bore Conditioner
 Widest operating temperature range -100°F to 750°F
 Migrates to hard-to-reach places
 Provides rust protection
 Easy to use
 Low odor

CLEANING

TETRA GUN - RETAIL PRICING

UK EXCLUSIVE AGENT

CLEANING SOLVENTS & METAL FINISHING

GUN BLUE & RUST REMOVER

Quickly Removes Rust and Old Blue Finishes Easily without Damaging the Base Metal

Removes rust from guns, tools, gauges, precision equipment, etc. Removes old blueing. Fast-acting & easy-to-use. Primes surfaces effectively to be relubricated or reblued.

TG001i 2.7oz **SRP** £9.99

LIQUID GUN BLUE

For Steel Touch-up and Complete Re-Blue

New additive further enriches color and reduces treatment time. Excellent for scratches and touch-ups. Easy-to-use, non-streaking. Each coat up to seven layers deepens the desired finish. Apply Tetra Gun Spray to finish.

TG002i 2.7oz **SRP** £10.99

ACTION BLASTER DEGREASER

Maximum Strength Firearm Cleaner / Degreaser for the Most Demanding Metal Cleaning Tasks

Liquefies and eliminates carbon fouling on contact. Quick evaporating solvent. Extremely economical and efficient. Black powder bore cleaning capability.

TG007i 18oz **SRP** £15.49
TG009B1i 12oz **SRP** £11.99

SYNTHETIC SAFE ACTION BLASTER

Safe on All Polymers, Plastics and Metals

Made to clean and remove solvent and lubricant residue, carbon and powder fouling and buildup. Just spray and wipe off before applying Tetra Gun Grease and/or Lubricant. No disassembly required. Safe on all synthetic firearm finishes.

TG006i 10oz **SRP** £13.99

COPPER SOLVENT

Quickly Removes All Contaminants from Firearm Barrels

Use as the first step in bore conditioning. Fast-acting, extra-strength formula. Won't 'etch' the barrel. Removes: copper, lead, plastic, carbon & dirt. Proven effective in dissolving copper fouling.

TG501i 4oz **SRP** £10.99
TG601i 8oz **SRP** £17.99

POWDER SOLVENT

For Routine Bore Cleaning

Concentrated bore solvent made for use on metal surfaces only. Removes stubborn carbon and powder fouling. Dissolves plastic wadding in barrels. Won't 'etch' the barrel. Ammonia-free.

TG605i 4oz **SRP** £7.99

LEAD REMOVAL CLOTH

Quick and Easy Way to Remove Lead from Your Barrel

Eliminates lead and burn marks. Cleans carbon build-up. For use on stainless steel firearms, handguns, rifles, shotguns and black powder guns. Easy-to-use.

TG330i 11" x 9" **SRP** £6.99

GUN CLEANER DEGREASER

Easy-to-use liquid pump spray for hard-to-reach locations. Cleaning & degreasing power for most light duty jobs. Safe to use; no harsh solvents. Environmentally friendly; mild odor. Won't harm finishes, wood, rubber or plastics/polymers. Just spray, wipe off and you're done!

TG360i 4oz **SRP** £10.99
TG361i 128oz Jug **SRP** £66.99

LENS CLEANER

Designed with a non-streaking, anti-fog formula, this new Lens Cleaner provides great results on sights, scopes, binoculars and glasses.

Anti-Fog Agent. Non-Streaking. Compact Size for portability.

TG350i 2oz **SRP** £6.99

CARBON CLEANERS

Advanced Cleaner Quickly Removes Carbon Buildup & Powder Fouling. Formulated with a Rust Inhibitor. Ammonia Free.

TG100i 8oz **SRP** £10.99
TG101i 2 1/4 Patch Jar (100) **SRP** £13.99
TG102i 4oz Wash **SRP** £10.99
TG103i 7oz Foam **SRP** £13.99
TG104i 2oz **SRP** £6.99
TG105i 50 Wipes **SRP** £10.99

General Application Instructions for cleaning a Bolt Action Rifle using Tetra® Gun

Remove the bolt and spray it with Tetra® Gun Action Blaster™ Cleaner Degreaser. For additional effectiveness, brush the lugs, bolt face, bolt body and the rear to remove primer residue, in particular. Then, run a cleaner-saturated cotton patch or swab into the chamber and locking lug recesses, and allow it to work for several minutes. Use the Tetra® Gun 3-Piece Multi-Purpose Brush Set to accomplish this. You may find the new Tetra ProSmith™ Tapered-Tip Swabs handy as well.

Spray more Action Blaster™ and scrub, as needed. You can also use the gentler Tetra® Gun Action Blaster™ Synthetic-Safe formula if you are concerned about dripping onto polymer or wood surfaces.

Cleaning the Bore

Spray Tetra® Gun Action Blaster™ through the bore and then swab with clean, dry patches until they appear clean. Black indicates additional fouling is being drawn out, while amber indicates that old petroleum-based solvent residue is leaching out. For harder buildup, use the Tetra® Gun Copper Solvent, and then spray Action Blaster™ through the bore afterwards to neutralize and flush out the solvent residue.

Treating & Conditioning the Bore

When you have thoroughly cleaned the bore, use Tetra® Gun Spray Lubricant directly in the bore, or apply Tetra® Gun Lubricant to cotton patches attached to a cleaning rod. Run the rod down the barrel 10-20 times until the lubricant is no longer visible. Now, you have successfully treated the bore. 13

SIERRA / NOSLER - RETAIL PRICING

SIERRA MatchKing® NEW PRODUCT

| | Dia. (inch) | Weight (gr) | Sectional Density | Ballistic Coefficients & Velocity Ranges |
|---|-------------|-------------|-------------------|--|
|  | 0.243 | 110 | 0.243 | .617 @ 2600 fps & above .605 @ between 1900 & 2600 fps .580 @ 1900 fps & below |

Shooters around the world will appreciate the accuracy and extreme long range performance of our new 6mm 110 grain HPBT. A sleek 27 caliber elongated ogive and a final meplat reducing operation (pointing) provide an increased ballistic coefficient for optimal wind resistance and velocity retention. To ensure precise bullet to bore alignment, a unique bearing surface to ogive junction uses the same 1.5 degree angle commonly found in many match rifle chamber throats.

| | | |
|--------|--------------------|----------|
| S1575 | HPBT Match Box 100 | \$46.46 |
| SC1575 | HPBT Match Box 500 | \$228.49 |

SIERRA MatchKing® NEW PRODUCT

| | Dia. (inch) | Weight (gr) | Sectional Density | Ballistic Coefficients & Velocity Ranges |
|---|-------------|-------------|-------------------|--|
|  | 0.284 | 197 | 0.349 | 0.780 @ 2300 fps & up 0.765 between 1550 fps & 2300 fps 0.711 @ 1550 fps & below |

Shooters around the world will appreciate the accuracy and extreme long range performance of our new 7mm 197 grain HPBT. A sleek 27 caliber elongated ogive and a final meplat reducing operation (pointing) provide an increased ballistic coefficient for optimal wind resistance and velocity retention. To ensure precise bullet to bore alignment, a unique bearing surface to ogive junction uses the same 1.5 degree angle commonly found in many match rifle chamber throats.

| | | |
|--------|--------------------|----------|
| S1997 | HPBT Match Box 100 | \$59.49 |
| SC1997 | HPBT Match Box 500 | \$289.49 |

SIERRA TIPPED MatchKing® NEW PRODUCT

| | Dia. (inch) | Weight (gr) | Sectional Density | Ballistic Coefficients & Velocity Ranges |
|---|-------------|-------------|-------------------|--|
|  | 0.308 | 195 | 0.294 | 0.610 @ 2000 fps & up 0.595 between 1600 fps & 2000 fps 0.560 @ 1600 fps & below |

Sierra has enhanced a segment of the MatchKing line by adding the acetal resin tip, thus crowning the Tipped MatchKing (TMK) bullet line. The major advantage of adding a tip to the bullet is the reduction of drag, producing a more favorable ballistic coefficient. This bullet is an excellent choice for F-Class (F Open) matches and various other competitions.

1 Metallic Black Polymer Tip:

Nested in the jacket mouth is the streamlined polymer tip.

2 Ultra-Thin Jacket Mouth:

Assures violent expansion at either end of the velocity scale.

3 Varmint Jacket Wall Design:

The uniform, gradual thickening at the bullet's mid-section is designed to keep the Varmageddon® together until impact-at any velocity.

4 Flat Base:

Bench rest accuracy out of a varmint bullet.
